

Filmed in Belgium, England, Ireland,  
Scotland, South Africa & the U.S.A.

## Is Your LOFT the Problem?

Champions agree, great pigeons in a poor loft WILL NOT WIN. But how can you tell if your loft is the problem? That's the question Jim Jenner sets out to answer as he visits dozens of top pigeon lofts around the world. What he discovers may surprise you. Most winning lofts didn't start out that way. They have been modified, over time, to work perfectly. Most important of all it is usually simple, inexpensive changes that have made the difference between winning and losing. Changes you too can make in your loft.

This film will help you understand the key components of a winning loft. It will tell you how to make sure your loft brings your pigeon into perfect form, and holds them there for a season. Combining filmed interviews, hundreds of detailed construction photos and fascinating 3D computer animations, Secrets of Champions IV is fast-paced and informative.

Whether you are planning a new loft, or trying to "fix" your current one, this video is an invaluable tool to help you make the key decisions that lead to victory.

### Featuring in-depth analysis of the champion lofts of:

Jim Jenner  
Writer/Director

Armed with his cameras, filmmaker Jim Jenner spent six weeks on two continents visiting some of the world's most successful lofts to create the fourth installment in his award-winning "Secrets of Champions" series on pigeon racing. The result is an over three hour production, the longest, most comprehensive film ever created on pigeon loft construction.

For almost 20 years Jim Jenner's films on pigeons and pigeon racing have been considered the finest ever made. Each film, whether it is a documentary or a how-to film, benefits from Jim's lifelong interest in pigeons and his 40-year career as an award-winning writer/director, film producer and journalist.
