

## 2008 AU NATIONAL ACE YOUNG PIGEONS

The National Ace Pigeon awards are presented to individual birds performing in races within a single race series. The scoring is accomplished using the Universal Performance Rating (UPR) system.

Races at all organizational levels of competition, including specials, are eligible for National Ace Pigeon Award consideration. The NDB program will automatically select the bird's best score from among the various competition levels for each day's race. Bird's Unirates are automatically optimized for each award. Birds are then ranked in their order of increasing Unirates. Smaller Unirates are better, i.e.; a 5% Unirate is better than 10%.

Real time interim results are posted on the AU web site at the National Database link. The top ten national qualifiers and the top pigeon of each sex will receive certificates.
