

2008 AU BREEDER'S AWARD

The AU Breeder's Award is designed to honor the AU members who excel at breeding and sending birds to other members to compete in special races, charity races, benefits or other races sponsored by an AU recognized organization. Scoring is based on the UPR – Unirate system. A minimum of three qualifying races is necessary for eligibility. However, any submission presenting five qualifying races from various events will result in superior ranking. Submissions are limited to the best five races.

Congratulations to the AU Breeder's Cup winner, Class of 2007-2008!

Bill Desmarais
Fall River, MA
Unirate score of 4.6082%
Average number of birds - 1327
