

2011 AU BREEDER'S AWARD

The AU Breeder's Award is designed to honor the AU members who excel at breeding and sending birds to other members to compete in special races, charity races, benefits or other races sponsored by an AU recognized organization. Scoring is based on the UPR – Unirate system.

A minimum of three qualifying races is necessary for eligibility. However, any submission presenting five qualifying races from various events will result in superior ranking. Submissions are limited to the best five races.

Congratulations to the 2011 AU Breeder's Cup winner!

Lou Coletta – Antioch, California

Unirate score of 0.426

Average number of birds - 1450
